EFREN S. CABUDBUD JR.

INFORMATION TECHNOLOGY STUDENT | ASPIRING SOFTWARE DEVELOPER

Bohol, Philippines | 09609229610 | 4r6iee@gmail.com
GitHub: github.com/4r6ie | Portfolio: efren-cabudbud-portfolio.vercel.app

PROFESSIONAL SUMMARY

Information Technology student expected to graduate in 2027, with hands-on academic and personal project experience in web and mobile application development, database-backed systems, and technical troubleshooting. Familiar with React, TypeScript, JavaScript, PHP, Laravel REST APIs, MySQL, SQLite, React Native, Expo, Docker, Git/GitHub, Python, and PyTorch fundamentals. Able to learn new tools, collaborate on development tasks, and approach technical problems in an organized and solution-oriented way.

TECHNICAL & PROFESSIONAL SKILLS

Web Development:	React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
Backend & APIs:	PHP, Laravel, REST API fundamentals
Databases:	MySQL, SQLite, Supabase fundamentals
Mobile Development:	React Native, Expo
Tools & Platforms:	Docker, Git, GitHub, VS Code, Laragon
Programming & AI:	Python, PyTorch fundamentals
Professional:	Documentation, teamwork, problem-solving, time management, adaptability

EXPERIENCE

Special Program for Employment of Students (SPES) 3 months

- Completed a three-month Special Program for Employment of Students (SPES) work placement.
- Carried out assigned tasks and followed workplace instructions and schedules.
- Developed practical workplace habits in responsibility, communication, and teamwork.

SELECTED ACADEMIC & PERSONAL PROJECTS

Blog / CMS System
React, TypeScript, Tailwind CSS, Laravel REST API, MySQL, Docker
Project combining a modern web interface with a Laravel API and MySQL database, using Docker for the development environment.

OJT Tracker
Laravel, React, Docker
Web application project designed to support on-the-job training tracking workflows, with Laravel backend services and a React frontend.

Campus News App
React Native, Expo, SQLite
Mobile application project for browsing campus news, viewing article details, and managing bookmarked content.

BayadTracker — Mobile Payment Tracking System
SQLite, Supabase
Mobile application project concept for organizing payors and payment records, with local SQLite storage and Supabase synchronization planning.

Dental Clinic Management System
HTML, PHP, MySQL
Web-based clinic management project focused on structured records and common CRUD workflows.

Salon Management System
PHP, MySQL, HTML, CSS
Database-driven management project for organizing salon-related information and records.

Mini LLM / AI Experiment
Python, PyTorch
Exploratory machine-learning project involving Python environment setup, dependency management, and experimentation with language-model concepts.

EDUCATION

Bachelor of Science in Information Technology (BSIT) Expected Graduation: 2027
Trinidad Municipal College

CORE STRENGTHS

Problem-solving • Adaptability • Team collaboration • Time management • Attention to detail • Willingness to learn
